1. Transparent armor internal layer, Polycarbonate (PC) is a sensitive material and must be treated differently than glass.
2. Uncertified chemicals are not allowed in contact or near the PC.
3. OSG recommend using "user instructions" label that can be affixed inside the vehicle on the PC, for the convenient of the end user, which instructs proper handling and care.
4. OSG can supply a dedicated label which is PC friendly.
5. OSG labels can be supply in several sizes and in any language suitable for the end user.
6. Samples for OSG PC cleaning labels:
